405th Army Field Support Brigade activates new battalion

The 405th Army Field Support Brigade, Seckenheim, Germany, will activate the 2nd Army Field Support Battalion in a ceremony in Vilseck, Germany, today. Lt. Col. Jordan Chroman will assume command.

The battalion will have a unique mission to oversee command and control of all U.S. Army Materiel Command logistical assets and capabilities in Vilseck and other military communities, and will deploy on order to provide expeditionary logistics support for the Army and Joint forces that are engaged within the European Command's area of operations. The activation of the 2nd AFSB supports AMC's implementation of the Army's European transformation.

AFSB breaks ground on \$9.7 million project

Army Field Support Battalion-North East Asia and the 403rd Army Field Support Brigade recently held a groundbreaking ceremony at Camp Carroll, Korea, for a \$9.7 million, state-of-the-art vehicle maintenance facility.

AFSB-NEA's mission is combat readiness and accountability for all U.S. Army prepositioned stocks assets in the Pacific Theater. The stocks stored and maintained at Camp Carroll represent about 50 percent of the U.S. ground combat power in Korea. The new facility will have 16 maintenance bays, administration area with classrooms, office area wired for secure and nonsecure communications, weapons storage vault, centralized tire shop, supply and communications rooms, storage areas and a mass notification system. The project is scheduled for completion in November 2007.

ANAD completes first Stryker RESET

A recent ceremony at Anniston Army Depot, Ala., rolled out the first battle-damaged Stryker vehicle that had been through the RESET process at ANAD.

Attending the ceremony were depot and General Dynamics Land System employees who worked on the first of 16 Stryker vehicles sent to ANAD for repair. Under a newly formed partnership arrangement, the depot provides the facilities and labor, and GDLS provides the technical and repair material support.

PBCDF reaches milestone

The Pine Bluff Chemical Agent Disposal Facility, Pine Bluff Arsenal, Ark., recently reached its 50 percent elimination mark for the destruction of GB rockets. This elimination mark equates to more than 45,000 rockets. PBCDF began processing GB rockets March 29, 2005.

Spotlight On...Always a Soldier

Headquarters, Army Materiel Command's Always a Soldier program recently hired Jonathan Herst as the new program coordinator. For the complete story, visit <http://www.amc.army.mil/amc/pa/releases06/veteran.html>. For more information on the Always a Soldier program, visit <http://www.amc.army.mil/alwaysasoldier/>.

Did you know...NSPS

Under National Security Personnel System, your occupational series (example: 346) remains the same; however it is referred to as an occupational code. For more information on NSPS, visit <http://www.cpms.osd.mil/nsps/index.html>
